"A NATION SAVED BY AMERICA," SAYS CLEVELAND H. DODGE

New York Business Man Describes Vast Armenian Work of Near East Relief.

Cleveland H. Dodge, New York banker and business man, director of the National City Bank, and treasurer of The Russell Sage Foundation and of the Near East Relief, declares that "a nation has been saved by American philanthropy, and the generosity of the American people through the Near East Relief, in its work for the Ar-

"The · lowest official estimate indicates that one million persons are living today who would not be alive had it not been for this relief." Mr. Dodge continued, "I have an autograph letter from Dr. H. Ohandjanian, president of the Armenian Republic, in which he writes: 'America literally saved us from starvation.'

"Wholly aside from adults who have

have in orphanages and elsewhere un der our care 110,000 homeless, fatherless or motherless children who are absolutely dependent upon us. This is exclusive of 63 hospitals with 6,552 beds, 128 clinics, rescue homes for girls and unnumbered thousands of refugees who are being helped through

our industrial relief and in other ways. "The Near East Relief has during ed and sent to the Near East more than 1,000 American relief workers, of whom 500 are still in the field, all of them working at great financial sacrifice-the standard of salary being \$50 per month and maintenance and many of them facing great personal danger and hardship in the performance of their life-saving service. A score of them have died from typhus or other diseases more or less related to their faithfulness in the performance of relief service.

"Nor is that all. We have raised and disbursed during war times and in a war-torn area, in large measure under enemy control, more than \$41,-000,000 in cash, and, including flour, Red Cross and other supplies administered by our agents, a total of cash and supplies in excess of \$50,000,000. The official reports show that on June 30, 1920, we had in orphanages 54,000 children, and that we are partially supporting outside of the orphanages 56.039 children, making a total of 110,-000 boys and girls now under the care

of the Near East Relief." Mr. Dodge considers the work of the Near East Relief one of the most stupendous undertakings of disinterested philanthropy the world has ever

"In countries whose population totals more than 30,000,000 souls, American idealism exemplified by the work of the Near East Relief constitutes today a torch of enlightenment and an influence for peace throughout the whele Near East," he maintains. "Our American ideal of liberty, industry and helpfulness has brought us as a people happiness, prosperity and fulfillment. Out of the fullness of this heritage we are furnishing a faithful and undaunted Christian people the brotherly aid which will enable them to reach the same fulfillment that God has

"It is an achievement of which every American may well be proud."

FRANKLIN SALES

Past Month Sets New High Mark for December Business

More Franklin Cars were sold during the last month of 1920 than in any previous December in Franklin history-1041 in all.

To set a new high mark for sales at this particular time is undeniable evidence of where the Franklin stands in motorists' opinion.

People are buying Franklins today because they want what the Franklin has always stood for—the motoring advantages which light weight, flexibility and direct air cooling deliver:

Comfort that makes possible a steady, rapid pace. Ease of handling that prevents fatigue and strain. Reliability that wards off delay and annoyance. Tire life that saves time, trouble and expense. Complete freedom from all cooling vexations—and—
